

# MD FAHIM TAYEBEE

FULL STACK WEB DEVELOPER (LARAVEL & VUE)

Phone

+8801688052518

Email

fahim.tayebbee@gmail.com

## ABOUT ME

I'm a full-stack artisan, weaving bespoke web experiences with the elegance of Laravel and the magic of Vue.js. My passion lies in crafting websites that are not just visually stunning, but strategically crafted to captivate users and drive tangible results. With 2+ years of experience in both back-end mastery (think Laravel symphonies) and front-end wizardry (Vue.js components dancing across the screen), I bridge the gap between design and development seamlessly. Every pixel, every interaction, is meticulously orchestrated to deliver masterpieces that not only resonate with your vision, but also deliver impactful conversions.

## WORK EXPERIENCE

TRAINEE LARAVEL DEVELOPER (INTERN)

ANALYZEN BANGLADESH LIMITED, DHAKA

OCTOBER 2021 | DECEMBER 2021

JUNIOR WEB DEVELOPER (Laravel & Wordpress)

TECH RAJSHAHI LIMITED, RAJSHAHI

JUNE 2022 | PRESENT

## SKILLS

Laravel

PHP

HTML

JavaScript

WordPress

Figma

Adobe XD

Bootstrap

jQuery

VueJS

CSS

Tailwind

Git

BitBucket

## EDUCATION

BACHELOR DEGREE - COMPUTER SCIENCE & ENGINEERING

AMERICAN INTERNATIONAL UNIVERSITY - BANGLADESH (AIUB), DHAKA

2017 to 2021 (CGPA - 3.42)

HIGHER SECONDARY SCHOOL CERTIFICATE - SCIENCE

RAJSHAHI EDUCATION BOARD MODEL SCHOOL & COLLEGE, RAJSHAHI

2015 to 2017 (GPA - 4.42)

SECONDARY SCHOOL CERTIFICATE - SCIENCE

SEROIL GOVERNMENT HIGH SCHOOL, RAJSHAHI

2008 to 2015 (GPA - 5.00)

## LANGUAGES

- English - Native
- Bengali - Fluent

## ADDITIONAL STRENGTHS

- Strong communication and collaboration skills
- Excellent problem-solving and analytical abilities
- Passion for learning and staying up-to-date with industry trends
- Delivers flawless, pixel-perfect work

# PROJECTS

---

## Smart City Corporation – Municipal Board Management System

PHP-LARAVEL, VUEJS, MYSQL

The development of a digital platform for the Smart City Corporation's Municipal Board to efficiently manage city services, administration, and public engagement. The platform leverages PHP-Laravel for backend development, VueJS for a responsive and interactive front end, and MySQL as the database, ensuring scalability, security, and ease of use.

## Smart Office Management System

PHP-LARAVEL, VUEJS, MYSQL

Developed a Smart Office Management System to automate and streamline office operations, including employee management, attendance tracking, task management, and payroll processing. Built using PHP-Laravel for a secure backend, VueJS for a dynamic, responsive front-end, and MySQL for efficient data storage. The system offers role-based access control, real-time notifications, and a comprehensive admin dashboard for performance monitoring and decision-making.

## Inventory Management System / Point Of Sale Software

PHP-LARAVEL, VUEJS, MYSQL

Designed and developed an Inventory Management System and POS Software to streamline product tracking, sales processing, and stock management. Built using PHP-Laravel for backend functionality, VueJS for an intuitive, real-time user interface, and MySQL for secure, scalable data management. Key features include inventory control, sales and purchase tracking, barcode scanning, real-time stock updates, detailed reporting, and multi-store support, enhancing business operations and decision-making efficiency.

## Real Estate Property Management System

PHP-LARAVEL, VUEJS, MYSQL

Developed a Real Estate Property Management System to manage property listings, tenant information, lease agreements, and payment tracking. The platform, built with PHP-Laravel for backend operations, VueJS for a responsive user experience, and MySQL for data management, streamlines property management workflows. Key features include tenant and lease management, property listing with detailed information, online rent payments, maintenance request tracking, and financial reporting, providing a comprehensive solution for real estate professionals.

## Learning Management System - LMS

PHP-LARAVEL, VUEJS, MYSQL

Developed a comprehensive Learning Management System (LMS) utilizing PHP-Laravel for backend development, VueJS for an interactive front end, and MySQL with optimized databases for efficient data handling. The system includes features such as course management, allowing instructors to create and organize courses with multimedia content. It provides separate portals for students and instructors, facilitating user-specific functionalities and experiences. Key functionalities include automated quizzes and assessments for student evaluation, progress tracking to monitor learning outcomes, and secure payment integration for course enrollments. The LMS also leverages WebSocket technology for real-time communication, enabling notifications and chat features.

## Responsive Wordpress Website Design

Elementor, WPBakery, Visual Composer, WooCommerce, Contact Form 7, Mailchimp

Designed and developed a fully responsive WordPress website utilizing various page builders and plugins, including Elementor, WPBakery, and Visual Composer, to create visually appealing and user-friendly layouts. The site features WooCommerce for seamless e-commerce functionality, allowing for efficient product management and online sales. Integrated Contact Form 7 for customizable contact forms, facilitating user inquiries and feedback. Additionally, incorporated Mailchimp for email marketing campaigns, enabling easy subscription management and communication with site visitors. The design prioritizes mobile responsiveness and cross-browser compatibility, ensuring an optimal user experience across devices. This project showcases a blend of aesthetic design and robust functionality, tailored to meet client needs in a dynamic online environment.
